Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 3 and 4 are rejected under 35 U.S.C. 102(e) as being anticipated by Vonesh et al. (6,673,102). Vonesh et al. disclose a stent graft comprising: an extruded ultra-thin walled tube having a preferred wall thickness of about .05 to .2 mm; a film wrapped around the tube and a stent attached to exterior surface of the extruded ultra-thin walled tube by adhered to the film wrapped around the tube (see col. 8).

Note: The preamble of claims 3 and 4 has “open phrase” such that stent graft may comprise extra element.

Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowable subject matter: claims 1, 2, 5-30 are allowed because The declaration of prior invention in the United States filed on 3/3/06 under 37 CFR 1.131 is sufficient to overcome the cited patent reference, U.S. Patent No. 6,695,833 to Frantzen.
